

Departmental Infrastructure

1. Separate faculty rooms for Professors and Associate Professors
2. Seminar room with smart board.
3. Departmental Museum with
 - a. Wall mounted charts and display racks
 - b. Scientist photos
 - c. Drug Samples
4. Experimental Pharmacology Laboratory and Research Lab
5. Clinical Pharmacy Unit
6. Clinical Pharmacology Unit

Charts in museum

Teaching and Learning Facilities

1. Lecture hall with smart board
2. Access to computers with internet for literature search and academic work
3. Medical library:
 - a. Availability of standard pharmacology textbooks and reference materials
 - b. Availability of medical journals and E-journals through DMER E-library
4. Adverse drug reaction reporting forms (for healthcare professionals and patients) for training
5. Lecture are conducted in collaboration with AIIMS Nagpur.
 - a. Lecture on “New Drug Development including clinical trials and official regulations” was conducted on 08/12/2025
 - b. Lecture on “Essential Drug Concept” was conducted on 16/02/2026

Experimental Pharmacology Laboratory and Research Lab

1. Computer Assisted Learning (CAL) laboratory for simulation-based experiments with computers and CAL software.
2. Mannequins for demonstration of routes of drug administration

CAL Lab

Whole body mannequin for administration of drugs through various routes of administration

**Research lab
Department of Pharmacology**

Clinical Pharmacy

1. Medical Drug Store
2. Dispensary
3. Dosage forms and drug formulations
4. Medicinal plants (Charts)

**Dosage forms and formulation
Medical Devices**

Medicinal Plants

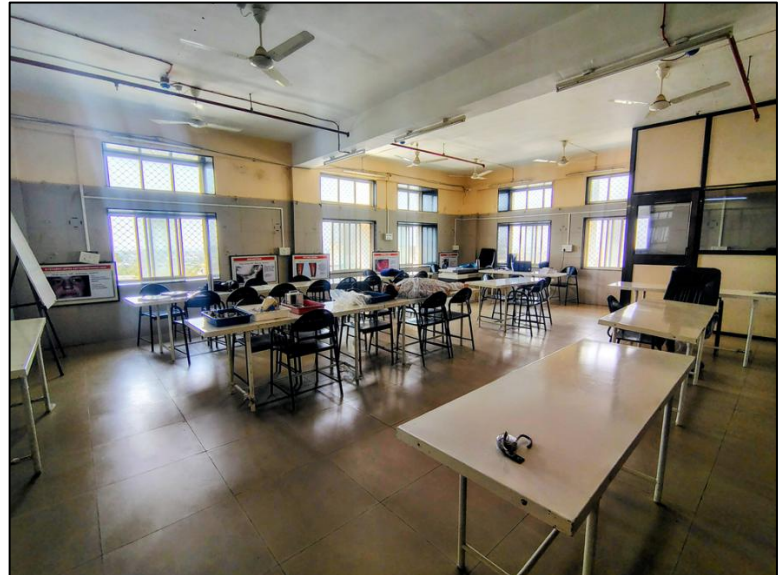

Dispensary

Clinical Pharmacology Unit

1. Pharmacovigilance committee
2. With adverse drug reaction photographs
3. Adverse drug reaction reporting forms (for healthcare professionals and patients)
4. Prescription writing and prescription audit format
5. Institutional Ethics Committee (IEC)
